

## CHASSIS ENCLOSURE APPLICATION

This control was constructed to withstand a harsh industrial environment. The switches on the left utilize piezo technology, into which LEDs have been embedded. The completely sealed construction offers exceptional durability in order to withstand frequent user abuse.

### Project Details

- Switch Size - 2" x 9.5"
- Chassis Size - 9.5" x 15.29" (.090" Formed Aluminum)
- Switching - Twelve(12) Contacts
- Overlay Material - .020" Anodized Aluminum
- Sub Panel - .102" Aluminum
- PC Board - .063" FR-4
- Colors - Aluminum Background with Metalphoto Blue and Black

*LCD Control Module - Retrofit*
