Wilson-Hurd Is Now ITAR Registered

A specialist in custom printing, fabrication, and electronic control products, Wilson-Hurd is pleased to announce that it is now ITAR registered. This registration shows that Wilson-Hurd has the knowledge and understanding to comply with the ARMS Export Control Act (AECE) and International Traffic in Arms Regulations (ITAR). Receiving ITAR registration implies that Wilson-Hurd has met requirements related to organization structure, documentation, corporate policy, training and procedures. With this ITAR registration, Wilson-Hurd has the right to manufacture and ship military products for export.

“Achieving this registration will be helpful as we expand our sales focus into the military market. Wilson-Hurd’s extensive line of products combined with our ability to design products to withstand harsh conditions make our custom electronic control products an excellent choice for military projects,” states Jim McIntyre, President and Chief Operating Officer at Wilson-Hurd.

Wilson-Hurd manufactures custom membrane switches, capacitive switches, Piezo panels, elastomeric rubber keypad assemblies and touch panels. To learn more about our custom electronic control products, please visit www.wilsonhurdelectronics.com. The company also produces custom nameplates, graphic overlays, domed labels as well as custom components for point-of-purchase displays. For additional details on these products, visit www.wilsonhurd.com.
